FARRUKH JUMAYEV

Frontend Engineer (React, Next.js, TypeScript)

Tashkent, Uzbekistan | djumayev.dev@gmail.com | +998 (88) 811-41-71
github.com/thefarrukhdev | linkedin.com/in/farrukhdjumayev | thefarrukhdev.vercel.app

PROFESSIONAL SUMMARY

Frontend Engineer specializing in modern web architecture, responsive user interfaces, and high-performance applications with React, Next.js, and TypeScript. Experienced in architecting institutional job portals, booking engines, and B2B platforms with clean component design and Core Web Vitals optimization. Possesses strong computer science foundations (C, memory management, data structures, algorithms) honed through School 21 (42 Network).

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), C, SQL
Frontend Architecture: Next.js 15 (App Router, Server Actions, SSR/ISR), React 19, Zustand, TanStack Query, Redux
UI & Design Systems: Tailwind CSS, ShadCN UI, Radix UI, Framer Motion
Backend & Data (Fullstack): Node.js, NestJS, PostgreSQL, Prisma ORM, RESTful APIs, Redis
DevOps & Testing: Docker, Vitest, Playwright, Jest, GitHub Actions, CI/CD, Linux (UNIX/POSIX, Shell), Web Vitals
Languages (Spoken): Uzbek (Native), English (Professional Working Proficiency), Russian (Conversational)

FEATURED PROJECTS

School 21 CareerHub | *Next.js 15, TypeScript, Tailwind, ShadCN* careerhub.21-school.uz
- Engineered institutional career portal connecting 500+ School 21 (42 Network) engineers with tech employers.
- Built authenticated candidate portfolio profiles, multi-attribute vacancy search filters, and recruiter pipelines.
- Engineered accessible, WCAG-compliant UI primitives with ShadCN and Radix, achieving 98+ Google Lighthouse scores.

Safaar Booking Platform | *Next.js 15, NestJS, PostgreSQL, Docker* safaar.uz
- Architected a scalable full-stack booking monorepo with client reservation portal and administrative property dashboard.
- Designed relational PostgreSQL schemas with atomic transactions and isolation levels to prevent race conditions.
- Implemented JWT authentication with role-based access control (RBAC) and containerized microservices with Docker.

BunkerStroy Marketplace | *Next.js, TypeScript, Gemini AI, Tailwind* bunkerstroy.uz
- Developed enterprise B2B marketplace featuring heavy logistics tracking and multi-vendor construction material catalogs.
- Integrated Google Gemini AI with structured JSON schema validation to automate material estimation workflows.
- Engineered responsive data tables with client caching (TanStack Query) to render 1,000+ SKU inventories smoothly.

Kokand University Portal | *Next.js, TypeScript, Tailwind, REST APIs* kualumni.uz
- Constructed interactive analytics dashboards for administrative staff to monitor graduate placement statistics and trends.
- Streamlined application submission workflows and dynamic filtering, accelerating administrative reporting workflows by 2x.

PROFESSIONAL EXPERIENCE

Frontend Engineer (Contract & Client Solutions) 2024 – Present
Production Web Applications & Institutional Platforms *Tashkent, Uzbekistan*
- Architected and deployed 5+ production web platforms using Next.js 15, TypeScript, and modular design systems.
- Engineered client-side caching strategies (TanStack Query, Zustand) and optimized API queries, reducing data latency by 35%.
- Optimized bundle size, asset loading, and dynamic code splitting to achieve consistent 95+ Google Lighthouse scores.
- Automated deployment workflows via Vercel and Docker containerization, ensuring zero-downtime releases and strict type safety.

EDUCATION

School 21 / **42 Network** 2024 – Present
Software Engineering Program (Peer-to-Peer, Project-Based) *Tashkent, Uzbekistan*
- Rigorous project-driven curriculum: C, memory management, algorithms, data structures, and POSIX Unix systems.

Najot Ta'lim 2024
Frontend Development Bootcamp (React, Next.js, TypeScript) *Tashkent, Uzbekistan*
- Completed intensive training in modern React ecosystem, Next.js, TypeScript, state management, and component architecture.
